

## PARTICIPATION AGREEMENT

We are a community in which educational values are shared, and where mutual support is expected based on respect and solidarity. The way we understand education is as an offering to society. We expect that whoever commits to the project does so based on trust in the Pedagogical Team and the **Director**, and on acceptance of all the members of the educational community as they are.

### We offer:

- A guaranteed place for the whole school year
- Adaptation respected and supported by the Pedagogical Team and understood to be a family process
- Individualized attention for every family from the **Director** and Pedagogical Teams
- Group support
- Acceptance and listening
- Shared information on matters of upbringing and education (amongst other things we have a library for families, and accompanying adults offer educational meetings to address issues using the School's approach)
- The opportunity to attend activities and training

### We ask that:

- You are involved as a family in the pedagogical and philosophical approach of the project, including a commitment with bilingualism and international-mindedness in the family environment. The acceptance of this point implies that the family knows, understands and supports the Guiding statements attached.
- Each member of the family joins at least one commission: events, communication and dissemination, maintenance or pedagogical material, and that they respond to special appeals which may be made to help with important activities for the project.
- Each family takes turns for cleaning and laundry and is responsible for remembering to do it.
- You respect the times for arriving and leaving (except during the adaptation period and for circumstances agreed with the accompanying adults).

- You attend group meetings and individual parent-accompanying adult meetings.

Admission and payments:

- Once it is confirmed that you are joining the project, the registration fee is payable.
- The first monthly fee is payable on September 1st. If you join from October onwards, the fee for that month will be paid on the joining day at the latest.
- The total cost for the year is prorated over 12 months (12 instalments).
- The monthly fee is paid on the 1st and 2nd of each month.
- It is understood that once the matriculation is paid the agreement is on an annual basis (from the day of admission until 08/31).
- If you leave the project during the year, you must advise the exact date in writing and you must give 2 months' notice or pay the fee for those two months. In addition the fees for the vacation months (July and August) must be paid, divided by ten and multiplied by the number of months of being in the project (including the two months' notice).
- Reservation of a place for the following year will be confirmed from March 1st to 15th and the confirmed reservation fee will be paid (see conditions for the school year 2017-2018 in the Family Handbook).

I trust, I accept and I participate
